PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 19 OCTOBER 1983

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred During the Preceding Week:

a. During this week the final two of thirteen informal LIMS Technical Exchange Meetings (TEMs) were held. These TEMs involved future LIMS users and Booz-Allen & Hamilton (BAH) representatives. They were considered a success in that they provided BAH with a great deal of information and background on how and why we perform our duties now and, to some extent, how we'd like to see them performed under LIMS. This information, when combined with the Detailed System Requirements, should provide BAH with a more complete understanding of what we want from LIMS.

b. Invitations to attend the System Definition Review (SDR) on 27 and 28 October--the next major milestone under LIMS--were sent out to forty-nine individuals representing OL, OF, and OIG. This review will afford attendees another opportunity to assess BAH's understanding of our requirements and review their progress to date.

c. Members of P&PS, the LIMS System Development Group, and BAH attended a presentation on Bar Coding at [redacted] Lt. Col. McElroy provided some good background information on DOD's efforts in this area. BAH reps asked a variety of questions and the lines of communications have been established to obtain more details on this subject.

Ending 19 October 1983

b. Regulations Revisions

The following regulations were written, reviewed, commented upon, concurred in, or published during the past week:

STAT

[redacted] Printing, Photographic, and Reproduction Services - In the Weekly Report for the Period Ending 14 September 1983, we reported that the DDI and OTE had not concurred and that we were not able to make the changes to our regulation that these components wanted. The trouble concerned the new duties that P&PD has taken on lately in the teleproduction field. We are happy to report now that our differences have been reconciled and a revised draft of [redacted] was sent to OIS/RCD for recirculation around the Agency. We believe this time it will be acceptable to everyone.
